NES National Employment Service is a public welfare body (PWB). which is a separate entity from government body provides the mutual services between job seekers and employers. The main objective of NES is to provide inspiration and enthusiasm to work among the unemployed young men and women of the society. It has to create awareness about employment opportunities in different sections of the society and in different fields with different subjects. At the same time, it also makes contact with training centers to ensure their employment by providing many opportunities to the unemployed to get employment by giving them guidance in various fields. Being a PWB, it does not charge any money from the society/ individual/ group/ organization etc. for the above services but purely based on public welfare.

NES also provides the opportunities for various vocational training programs to the high school candidates and youngsters in many fields with the help of many board, universities and institutes to ensure the skilled and efficient people can be served for the society in every field.

Writti Health Research and Development Observatory Company is one of the company contributing special work in the field of providing direction to the directionless and misguided youth of the society by entering into a collaboration with the National Employment Service. Writti has a vision to make diseaseless and aim full human life society in the natio india. and for doing so Writti is seeking such Health & Wellness Therapist to serve the holistic health in the society by maintaining the algorithm of holistic health between health care worker and people in the nation.

Therefore, Writti wants to appoint health and wellness therapists in various wards and areas of all the urban and rural areas and towns in all the states of India. For which we are feeling the need of minimum 400000 health and wellness therapists suggested to be served today for the holistic health services pan India, so we would like to recruit qualified candidates soon. and therefor we have started the job oriented health care training programs to train the unemployed but enthusiastic youth with the help of world health research and development organization.

Now Writti is offering the DHWS (Diploma in Health and Wellness Science) & BHWS (Bachelor in Health and Wellness Science) courses run by VISHWA SWASTHYA SHODH EVAM VIKAS SANSTHAN (WORLD HEALTH RESEARCH & DEVELOPMENT ORGANIZATION) WHRDO .

Course contains almost every aspect of AYUSH & Alternative Medicine including Indian Traditional Medicine System. Upto 100% Education loan facility is available. means no need to pay your fees before earnings.

Benefits of entering this training program :

1. Seeing the possibility of how employment-oriented and highly beneficial and useful this training program is for the humanity and the nation, the National Employment Services have offered employment guarantee cards to the entrants.
2. Instant availability of job offer letter along with employment counseling to ensure future financial security.
3. Convenient job opportunities in your own residential area cities and township.
4. On the very first day of admission by the entrants in this course run by WHRDO, they will be issued a job Appointment letter on the desk dated course completion by Writti Health Research and Development Observatory for 12 months of probation period. Means job is confirmed as soon as you enter the course.
5. On the successful completion of the course, the minimum pay scale ranges from Rs.30,000 to Rs.100,000 per month as per the performance of your academic report. after the probation period is done the provident fund facility starts fo the employee. And salary increase from 10 to 15 percent every year as per the performance of your work report. And promotion after analysis of your consolidated work report in every three years.
6. Availability of residence or allowance and travel allowance in case of transfer.
7. The opportunity to earn between the course duration for better understanding the market and the demand & supply psychology in very practical ways to make yourself productive and suitable for the future business and industrial culture.
8. All highly qualified Doctors, teachers & lecturers will guide, teach and share their lifetime Experiences and train the candidates in the field of holistic health and wellbeing to serve the best and expert HWT's (Health & Wellness Therapists) in the society
